# Francisco Gabriel Van Langenhove

*CEO @ Corvus • upcoming business philosopher • social media engineer • San Francisco Bay Area*
06-08-2003 | gabriel@corvus.gent | linkedin | github | corvus.gent

## Education

**Ghent University** — Ghent, Belgium
*Master of Science in Computer Science Engineering (discontinued for startups)* — *Sep. 2024 – Sep. 2026*
- Took 2nd-year electives early: Robotics, AI Research Seminar

**Ghent University** — Ghent, Belgium
*Bachelor of Science in Computer Science* — *Sep. 2021 – June 2025*

## Experience

**CEO & General** — Nov. 2026 – Present
*Corvus, revived solo after the original team stopped* — *San Francisco Bay Area*
- Got back up and rebuilt it as a one-man army: a realm with daily games, live stats and a community
- Co-founded it in Nov. 2025 in Ghent: led a small student team building authentic web experiences

**Social Media Engineer** — Nov. 2026 – Present
*gabe maxxing* — *X, Instagram, TikTok*
- Optimised engine of accounts and personas (gabe.maxxing, gabinho8.0, corvus), built with Compound

**GTM Engineer** — Oct. 2026 – Nov. 2026
*Pidgy, solving email chaos (Alkmist)* — *Ghent, Belgium*
- Researched scale-up strategies through academic research, business philosophy and founder interviews

**Co-Founder** — Oct. 2025 – Present
*Stealth Startup & Tutor Gabriel* — *Belgium*
- Managed <20 tutors and taught programming at Tutor Gabriel; now in stealth, looking for a co-founder

**Customer Service Representative (Internship)** — July 2025 – Aug. 2025
*United Airlines* — *Zaventem, Belgium*
- Assisted travelers in five languages in a high-traffic airport environment

**Lifeguard** — 2022 – 2025
*Swimming Pool* — *Asse, Belgium*

**Youth Reporter** — 2013 – 2015
*VRT (Ketnet)* — *Belgium*
- Interviewed the casts of various upcoming Flemish TV shows on national television, aged 10–12

## Research

**Mutual Manipulation Between LLMs and Humans** | *with A. Buzogany* — Oct. 2025 – Dec. 2025

**Model-Based & Physics-Informed Deep Learning for Medical Imaging** — Oct. 2025 – Dec. 2025

## Projects

**PartyCrasher 3000** | *Python, ROS2, Bash* — Oct. 2025 – Dec. 2025
- Autonomous party robot that drives, dances salsa, talks, serves beer and shoots M&M's from a mini-gun

**Dwengo-1 Learning Platform** | *TypeScript, Node.js, Vue.js, Docker, Postgres* — February 2025 - May 2025
- Led a team of 7 building a full-stack learning platform for teachers to assign and track work

**Chasing to be IBJJF World Champion** | *Brazilian Jiu-Jitsu* — 2022 – Present
- Train ± daily, bronze at Grappling Industries, alongside 70+ hour work weeks: time management is key

## Objective

- Build the coolest community in the world with Corvus, and travel to meet founders everywhere
- Pursue a business master in Paris or London for a stronger business foundation and a lasting network

## Technical Skills

**Languages**: Java, Python, Rust, C/C++, SQL, JavaScript, HTML/CSS, Haskell, Prolog, R, Maple
**Frameworks & libraries**: React, Node.js, Flask, ROS2, Scikit-learn, TensorFlow, Pandas, NumPy
**GTM tools**: Lemlist, Clay, PostHog, Claude
